

INDO WOOSUNG VACUUM CO. PVT. LTD.

## MVP Series Double Stage

### Direct Drive Rotary Vane Vacuum Pump

Capacity 840 to 7500 LPM , Ultimate Pressure :  $< 5 \times 10^{-4}$  Torr

- Advanced design pump isolation & anti-suckback valve mechanism
- Low power consumption
- Constant pressure oil circulating system
- Low noise & vibration levels
- Fine control Gas ballast valve
- Provision for fitting external oil filtration device
- Screen filters at pump inlet & outlet
- Specially developed vane material with very low coefficient of friction
- International standard clamp & flange
