

INDO WOOSUNG VACUUM CO. PVT. LTD.

TRP Series Double Stage

Direct Drive Rotary Vane Vacuum Pump

Capacity 80 to 1250 LPM, Ultimate Pressure : $< 5 \times 10^{-4}$ Torr

- In-built advanced design pump isolation and anti-suck back valve mechanism
- Constant pressure oil circulation system
- Anti corrosive materials
- Cartridge type design enabling easy serviceability
- Three position Gas ballast valve
- Light weight Aluminum construction
- High degree of vacuum with low power consumption
- Specially developed vane material with very low coefficient of friction
- Very low noise and vibration levels with low vacuum oil charge
